OBJECTIVE

I am a BCA student with knowledge of Java, Web Development, and SAP ABAP. I have successfully completed my SAP ABAP training and am looking for an internship or placement opportunity to apply my technical skills, gain practical experience, and build a career in SAP technologies.

SKILL

SAP ABAP : Data Dictionary (Domains, Data Elements, Tables), Classical & interactive Reports, ALV Grid report, Open SQL, Function modules, BDC, BAPI, BADI.

Programming Languages : Java (Core Java, OOPs, Collections, Multithreading).

Databases & Tools : DBMS, MySQL, JDBC, GitHub (Basic)

Web Technologies : HTML5, CSS3, Bootstrap, JavaScript, React JS (Conceptual Knowledge).

PROJECT

HOUSING SOCIETY & FACILITY MANAGEMENT

Tech Stack :- Java | MySQL | JDBC

- Developed a Java and MySQL-based system that manages society records digitally.
- Handles role-based access for Resident, Tenant, Staff, Manager, and Admin.
- Tenants send stay requests, owners approve, and residents can pay maintenance or raise complaints.
- Manager assigns complaints to staff, approves requests, and posts notices/events.

AYURVEDA E-COMMERCE & HEALTHCARE WEBSITE

Tech Stack :- HTML5 | CSS3 | JavaScript | Bootstrap

- Designed and integrated multiple pages including Home, About Us, Shop, Contact Us, and Checkout.
- Implemented a dynamic shopping cart using JavaScript and Local Storage for data persistence.
- Enhanced user experience with product hover effects, CSS animations, and responsive design.
- Added form validation, animated counters, and Google Maps integration.

CERTIFICATES

- SAP ABAP Training Completion Certificate - LanceSoft Inc.
- Java (Basic) - HackerRank
- Industry Relevant Soft Skills - level 1 Certificate from Sant Singaji institute Science and Management.
- SQL(Basic, Intermediate, Advanced) - HackerRank
- Java Programming Certificate - Sant Singaji Institute Science & Management.
